Diagnostic Approach to Weight Loss in Cats

Join our free of charge webinar on diagnostic approach to weight loss in cats.

Weight loss in cats can be seen with a multitude of conditions and as such it is essential to have a directed and pragmatic approach while considering the most common differential diagnoses.

During this webinar, we will discuss the most common causes of weight loss, why a Minimum DataBase is an essential starting point of the investigation, and what other additional tests may be relevant.

Discussion topics

- Emphasizing the importance of evaluating clinical information before embarking on a long-winded investigation of causes of weight loss
- Establishing a broad-list of possible causes for weight loss from early on
- Reviewing the extremely valuable information that a Minimum DataBase can provide
- Highlighting the importance of additional tests that might be relevant for continued investigation

Date and Time

This webinar will be held on the 11th of April 2019.

6 PM GMT (UTC +0) – London

7 PM CET (UTC + 1) – Amsterdam, Paris, Stockholm

8 PM EET (UTC + 2) – Helsinki

The webinar will be followed by a Q&A session with the presenter, recorded and made available to you On Demand. The webinar is held in English.
